Business Units and Major Products

Specialty Steel Company

- High-grade specialty steels [YSS™]: molds and tool steels, alloys for electronic products (display-related, semiconductor and other packages), automotive products (piston rings and CVT belts), razor and blade materials, aircraft and energy-related materials

Roll Company

- Rolls for steel mills
- Injection molding machine parts
- Ceramic products
- Steel-frame joints for construction

Hitachi Tool Engineering, Ltd.

- Cutting tools

NEOMAX Company

- Permanent magnets (Ferrite, rare-earth [NEOMAX®]) and applied products

Soft Magnetic Materials Company

- Amorphous metals [Metglas®]

Information System Components Company

- Multilayered devices and isolators for mobile phones
- Soft ferrite core
- Nanocrystalline magnetic material [FINEMET®] and applied devices
- Amorphous metals [Metglas®] and applied products

Automotive Components Company

- Heat-resistant exhaust casting components [HERCUNITE®]
- Ductile iron [HNM™]
- Aluminum wheels [SCUBA™]
- Other aluminum components

Piping Components Company

- Piping and infrastructure components (Gourd® pipe fittings, stainless steel and plastic piping components)

Hitachi Metals Techno, Ltd.

- Construction components including infill and structural systems
- Material handling systems

Notes: 1. In addition to the above business segments, Hitachi Metals also operates a Services and Other segment, which accounted for ¥86,938 million of sales in the year ended March 31, 2009. Eliminations and corporate assets at March 31, 2009 totaled ¥86,836 million.
2. In the graphs above, sales figures and percentages are based on each segment's sales, including intersegment sales.
