The corporate governance of Hitachi Metals, Ltd. (the “Company”) is described below.

### **I. Basic Views on Corporate Governance, Capital Structure, Corporate Attributes and Other Basic Information**

#### **1. Basic Views**

The underlying basis for corporate governance at the Company is to ensure transparent, sound, and efficient management, meet the needs of our stakeholders, and increase corporate value. We believe increasing corporate value to be one of our most important management challenges.

Accordingly, it is imperative that we create an organizational structure in which management supervision and business execution both function effectively and are balanced. We also believe that timely, high-quality information disclosure contributes to the improvement of corporate governance. In pursuit of this philosophy, we go beyond simple financial disclosure, regularly publishing the details of individual businesses and medium-term management plans.

We acknowledge that compliance is the linchpin of corporate governance. Because of this, we must go beyond mere compliance with laws and internal regulations, extending to the role we must fulfill as a member of society while staying aware of the corporate activities that we engage in, based on respect for social ethics and morality.

The Company established the “Hitachi Metals Group Codes of Conduct” (<https://www.hitachi-metals.co.jp/e/corp/corp15.html>), which materializes the above details and serves as specific standards to guide its Directors, Executive Officers, and employees on what is the appropriate conduct.

Directors and Executive Officers are compensated for executing management that enhances the Company’s corporate value and benefits stakeholders by formulating, determining, and executing management policies from a medium- to long-term perspective, medium-term management plans, and annual business budgets, and the compensation system reflects the Company’s short-term and medium- to long-term business performance.

The Company’s corporate governance framework is established in the Corporate Governance Guidelines (“the Guidelines”) and the basic policy on the internal control system determined by the Board of Directors based on Japan’s Companies Act. An overview of this basic policy is provided in “IV. Matters Related to Internal Control System, 1. Basic Views on Internal Control System and Progress of System Development.” Furthermore, the Guidelines are also provided on the Company’s website (<https://www.hitachi-metals.co.jp/e/ir/ir-csr.html>).

#### **[Reasons for Non-compliance with the Principles of Japan’s Corporate Governance Code]**

The Company implements all the principles of the corporate governance code.

## **[Disclosure Based on the Principles of Japan's Corporate Governance Code] [Updated]**

### **[Principle 1-4] Holding Shares of Other Companies as Strategic-Shareholdings**

In principle, the Company shall not hold the shares of other companies as strategic-shareholdings. The exception is if the Company believes these holdings contribute to the Company's corporate value. The Company would comprehensively take into consideration objectives of such holdings such as maintenance and strengthening of business relations, capital tie-ups, business alliances and joint development as well as associated returns and risks. The Company has been reducing such holdings through conducting an annual review of holding objectives by the Board of Directors primarily on the significance of holding and the cost of capital of each individual stock from qualitative and quantitative aspects. For other policies on our strategic-shareholdings, please refer to Article 7. Policies Concerning Holding Shares of Other Companies as Strategic-Shareholdings in the Guidelines. As of March 31, 2021, the number of the strategic-shareholdings was 12. The number has decreased from 42 as of March 31, 2015, when the corporate governance code had yet to be implemented.

### **[Principle 1-7] Related Party Transactions**

For policies and procedures on transactions with the Company's parent company, please refer to Article 8. Transactions with a Parent Company of the Company in the Guidelines

### **[Principle 2-6] Roles of Corporate Pension Funds as Asset Owners**

The Company adopts a contract-type defined benefit pension plan. To manage the pension plan, the Company has established the Retirement Benefits Committee consisting of the officer in charge of Human Resources & General Administration, the officer in charge of Finance and others, and assigned personnel with appropriate qualifications required in the Human Resources & General Administration and Finance Division as the secretariat. In addition, the Company has established a basic policy on pension asset management to ensure pension benefits to beneficiaries in the future and secure the total returns necessary for payment over the long term. According to the policy, the Company sets a medium- to long-term strategic asset mix as well as selects and evaluates asset managing trustees, and monitors the status of pension asset management on a regular basis. The trustees manage conflicts of interest between such trustees and beneficiaries by complying with the defined criteria for the exercise of voting rights, taking into account that they exercise their voting rights solely for the purpose of increasing performance of asset management as defined in the basic policy.

Furthermore, to help employees ensure stable asset building, the Company adopts defined contribution pension plans in addition to the contract-type defined benefit pension plan, carries out the review of asset managing trustees and asset management products, and provides employees with educational sessions on asset management.

#### **5. Special Circumstances Which May Have Material Impact on Corporate Governance [Updated]**

The Company is a member of the Hitachi Group, centered around Hitachi, Ltd., the parent company. Within the Hitachi Group, the parent company and the listed subsidiaries all share the common objective of improving the Group's overall value through strengthening the competitiveness of each company, and the listed subsidiaries are able to reap the benefits derived through participating in measures contributing to the strengthening of the business base. Moreover, with respect to management relating to listed subsidiaries, so that each company's autonomy and originality is fully respected and the parent company's involvement in such management is limited except in cases where matters are required to be put before each company's general meeting of shareholders, the management decisions of those subsidiaries are carried out pursuant to the respective company's decision making processes. Accordingly, the Company aims to maintain close cooperation with the group companies through R&D collaboration while remaining independent in its business operations and transactions with Hitachi, Ltd. and by using the Company's management resources effectively, the Company seeks to provide high-quality products and services.

With regard to personal relationship with Hitachi, Ltd., one Executive Officer of Hitachi, Ltd. concurrently serves as Director of the Company. The Company may encounter circumstances where, through the participation in statements of opinion and resolutions at the Company's Board of Directors, Hitachi, Ltd. could influence the determination of management policies, etc. of the Company. However, two Outside Directors, who have been designated as Independent Directors in accordance with the regulations of the stock exchange on which the Company is listed, assumed office, and a more diverse range of opinions can be reflected when carrying out deliberations at the Board of Directors; therefore, it is recognized that the Company is in a position where independent management judgments can be made. Executive Officers who execute business of the Company have not concurrently served as Director and Executive Officer of Hitachi, Ltd.

With regard to the business relationship with Hitachi, Ltd., the Company does have loan agreements, etc. with Hitachi, Ltd. under the Hitachi Group Pooling Scheme, but the business activities of the Company are not heavily dependent on transactions with Hitachi, Ltd. The Company adopted the policy that regulates transactions with Hitachi, Ltd. to be fairly carried out, based on market prices.

As announced on April 28, 2021, a tender offer, etc. for the common stock of the Company by K.K. BCJ-52 (hereinafter referred to as the "Tender Offer") is scheduled in the future, and the Company expressed its opinion, as of the same date, in favor of the Tender Offer, if it is initiated. K.K. BCJ-52 intends to make the Company its wholly-owned subsidiary through the Tender Offer and a series of transactions to be conducted thereafter. As a result, the Company will be separated from the Hitachi Group and its common stock will be delisted.

(Note) K.K. BCJ-52 is a wholly owned subsidiary of G.K. BCJ-51 (the "Parent Company of Tender Offeror"), which was established on April 23, 2021 for the primary purpose of holding all of the shares of the Company as well as controlling and managing the business activities of the Company. As of April 28, 2021, the investment funds advised by Bain Capital Private Equity, LP and its group (hereinafter collectively referred to as "Bain Capital") indirectly owns all of the equity of the Parent Company of Tender Offeror; however, the Parent Company of Tender Offeror will accept investments from the funds managed, operated, and provided with information by Japan Industrial Partners, Inc. (hereinafter referred to as "JIP"), an investment fund for which Bain Capital provides investment advice, as well as the funds operated by Japan Industrial Solutions Co., Ltd. (hereinafter referred to as "JIS," the investments by those funds collectively referred to as "Investments") after the expiration date of the period for the purchase, etc. of the Tender Offer and before the commencement date of settlement for the Tender Offer. After such Investments, the funds provided with investment advice by Bain Capital, the funds managed, operated, and provided with information by JIP, and the funds operated by JIS will indirectly own the entire outstanding shares of the Parent Company of Tender Offeror.

**[Auditing Structure]**

Appointment of Directors and/or Employees to Support Duties of the Audit Committee	Appointed
--	-----------

**Matters Related to the Independence of Such Directors and/or Employees from Executive Officers**

To assist with the duties of the Audit Committee, the Board of Directors Office has a person in charge of the Audit Committee who does not concurrently serve in any position at any other business operating division. The Audit Committee may, when deemed necessary, have the Internal Audit division under the responsibility of Executive Officers assist with the execution of duties of the Audit Committee.

Appointment, dismissal and disciplinary action regarding the person in charge of the Audit Committee are carried out by Executive Officers with the consent either of the Audit Committee or Audit Committee members appointed by the Audit Committee (hereinafter in this article collectively referred to as “the Audit Committee, etc.”), whereas personnel assessment and appraisal regarding the said person are performed by Executive Officers taking into account the opinion of the Audit Committee, etc.

Appointment, dismissal, disciplinary action and personnel assessment and appraisal regarding the head of the Internal Audit division are performed by Executive Officers. The reasons for any of these actions shall be explained in advance to the Audit Committee, etc.

It is noted that when a person in charge of the Audit Committee and the Internal Audit division assist with the duties of the Audit Committee, they are not subject to orders and instructions of Executive Officers to provide such assistance.

**Cooperation among Audit Committee, Accounting Auditor and Internal Audit Division [Updated]**

The Audit Committee (1) receives explanations about audit implementation plans from the Accounting Auditor and carries out a discussion on and adjustments to the detail as needed, (2) receives reports on audit results and engages in an exchange of opinions with the Accounting Auditor, and (3) receives reports from the Accounting Auditor in cases where, as for the performance of duties by Executive Officers, they find any significant evidence of wrongful act or violation of related laws and regulations, or the Articles of Incorporation in the course of performing their duties. The Audit Committee also receives reports on audit implementation plans and

periodic reports from the Internal Audit division. In addition, to promote coordination with audits performed by the Audit Committee, the Audit Committee may instruct the Internal Audit division to (1) conduct a special audit for any division that the Audit Committee deems necessary and (2) set key audit items for audits performed by the Internal Audit division. As specified by the Board of Directors, for matters required for the Audit Committee to execute its duties, the Internal Auditing Office of the Internal Audit division shall assist the Audit Committee in executing its duties in accordance with the Committee’s instructions. Furthermore, the Internal Auditing Office is also in charge of assessment of internal control and reports the status to the Audit Committee. Moreover, besides the Internal Audit division, the corporate divisions, etc. in charge of finance, compliance, risks, and other areas also play certain roles in internal control and report the status of performance of their duties to the Audit Committee.

The Company regards “promotion of tripartite audit function” as a paramount theme for the audit and supervision functions. The Audit Committee, the Accounting Auditor, and the Internal Audit division mutually share information on issues detected by each of them, and the Company promotes a “mutual check and balance system and mutual evaluation,” taking a step further from a one-way evaluation from the Company to the Accounting Auditor based on the evaluation standards for Accounting Auditors. Notably, the Company considers the function of detecting risks by the Accounting Auditor as an external agency is particularly important in the entire risk detecting process of the Group. To strengthen the said function, the mutual evaluation is implemented between the Accounting Auditor and the Company’s finance division or the Internal Audit division or the Audit Committee, respectively. Specifically, based on the evaluation standards for accounting auditors defined by the Audit Committee, the Audit Committee performs a comprehensive evaluation considering the following major factors evaluated by the Company: the Accounting Auditor’s communications with the Audit Committee, the senior management, the Internal Audit division and others; audit quality control system; audit plans; audit team; audit reports and quarterly review reports; and consistency between audit plans and audit hours as a basis of determining the amount of auditing compensation. The Accounting Auditor, on the other hand, evaluates basic operations of the finance division, the Internal Audit division, and the Audit Committee of the Company, handling of audit requirements, cooperation, risk recognition, activity status, resources and other factors, and reports the results to the relevant counterparties. The Company utilizes the above feedback to strengthen the Company’s functions. In addition, the Company carries out mutual evaluations between the finance divisions of the Company’s facilities or subsidiaries and the Accounting Auditor.

Implementation of Measures to Provide Incentives to Directors and/or Executive Officers	Performance-linked compensation
---	---------------------------------

Supplementary Explanation [Updated]
-------------------------------------

(1) The Policy on the Determination of Proportion of Payments as Performance-linked Compensation and the Other Types of Compensation, etc.

Compensation for Directors and Executive Officers of the Company is comprised of a base compensation, which is a fixed compensation, and a term-end bonus, which is a performance-linked compensation. For performance-linked compensation for Executive Officers, the standard amount is set in a way that the percentage of performance-linked compensation to the total amount of compensation falls within a range of the ratios specified below according the ranks of each Executive Officer to strengthen the link between the business performance of the Company, considering the degree of the responsibility of each Executive Officer for business execution. Compensation for Directors is comprised of only a base compensation, which is a fixed compensation, in order to contribute to the full execution of the management-supervision function. In case of Directors who also serve as Executive Officers, compensation as a Director is not paid.

Rank	Fixed compensation	Standard amount of performance-linked compensation
Chairperson and President	60%	40%
Senior Vice President and Executive Officer, and Vice President and Executive Officer	67%-68%	32%-33%
Executive Officer	70%	30%
Director	100%	—

(2) Indicators for Performance-linked Compensation and Reasons for the Selection of the Indicators

The indicators for performance-linked compensation are “revenues,” “adjusted operating income,” “return on invested capital (ROIC),” and “cash conversion cycle” on a consolidated basis as we focus on growth, profitability, and management efficiency in the Fiscal 2021 Medium-term Management Plan. Furthermore, non-financial targets are also included in the targets set for each Executive Officer.

(3) Method, etc. for Determination of the Amount of Performance-linked Compensation

The amount of a term-end bonus, which is a performance-linked compensation, to be paid to each Director and Executive Officer is calculated using the formula specified below based on the standard amount of performance-linked compensation set by rank. The Compensation Committee then discuss the results of calculation and finalize them.

Amount of term-end bonus to be paid to each Director and Executive Officer = Standard amount of performance-linked compensation × ((Corporate performance factor\*1 × Weight assigned for corporate performance factor) + (In-charge business factor\*2 × Weight assigned for in-charge business factor) + (Individual target factor\*2 × Weight assigned for individual target factor))

\*1 The “corporate performance factor” is the sum of the degrees of achievement of corporate performance related indicators multiplied by the weight assigned for each indicator (0.3 for revenues, 0.4 for adjusted operating income, 0.15 for return on invested capital (ROIC) and 0.15 for cash conversion cycle (CCC)), where the degree of achievement of each corporate performance-related indicator is predetermined by the Company with a range from 0 to 2 so that the target for each indicator related to corporate performance is set as 1. The target and actual results of the “corporate performance factor” for the current fiscal year are as follows. However, for fiscal 2020, even if the targets are achieved, the amount to be paid will be 70% of the standard amount.

Index (consolidated)	Target	Actual results	Target	Actual results
Revenues	¥1,000.0 billion	¥881.4 billion	¥756.7 billion	¥761.6 billion
Adjusted operating income	¥54.0 billion	¥14.4 billion	¥4.4 billion	¥(5.0) billion
Return on Invested Capital (ROIC)	3.5%	(5.0)%	0.5%	(0.7)%
Cash Conversion Cycle (CCC)	84.2 days	87.1 days	86.3 days	89.1 days

(Note) [Fiscal 2019] ROIC = Net income attributable to shareholders of the parent company / (average of beginning and end-year interest-bearing debts + average of beginning and end-year equity attributable to shareholders of the parent company)

[Fiscal 2020] ROIC = {Adjusted operating income × (1 – tax rate of 25%) + (equity in earnings affiliates)} / (average of beginning and end-year interest-bearing debts + average of beginning and end-year capital)

\*2 Each of the “in-charge business factor” and “individual target factor” is the sum of the degrees of achievement of the targets set for each Director and Executive Officer multiplied by the weight assigned for each target, where the degree of achievement of each target is predetermined by the Company with a range from 0 to 2 so that the target for each Director and Executive Officer is set as 1.

- 3) The Company shall cause its subsidiaries to establish systems according to their scale of operations, etc. based on the systems of the Company, in order to ensure the appropriateness of their operations.

Based on the above basic policies for establishing the systems, etc. to ensure appropriate operations (internal control system), the Company implements the systems as follows.

For compliance, based on the principle of “obeying the law and walking the path of virtue,” the Company has established the “Hitachi Metals Group Codes of Conduct” as the basis for judgment and behavior that should be followed by all Hitachi Metals Group officers and employees, and we have created a “CSR Guidebook” in order to deepen understanding of compliance, which has been distributed to all officers and employees of the Group. Compliance training is regularly conducted group-wide in lecture and e-learning formats. The Company has established an internal reporting system, prioritizing the protection of whistleblowers, aimed at early detection and improvement of inappropriate problems in corporate activities, and striving to prevent recurrence. The Company also conducts various events in every October, stating the month as the “Corporate Ethics Month” to raise employees’ awareness towards compliance, including compliance training by external instructors for management executives.

During the fiscal 2020, as a measure to prevent the recurrence of misconduct related to quality in particular, the Company strengthened governance of the quality assurance system by appointing a Chief Quality Officer (CQO) who is a dedicated Executive Officer for quality, ensuring the independence of the Quality Assurance Division. In addition, with the aim of raising awareness and reforming behavior with an emphasis on quality, the Company disseminated messages by management executives, continued to hold town hall meetings, adopted company rules for the “Company-Wide Quality Activity Philosophy,” and established quality assurance-related rules such as the “Hitachi Metals Group Corporate Ethics and Compliance Code” that complements the “Hitachi Metals Group Codes of Conduct,” as well as conducting quality compliance training. Also, as a measure of strengthening the internal reporting system, the Company has newly introduced a whistleblower system in which an outside contractor serves as the collection agent for whistleblower reporting for the purpose of preventing concealment of whistleblower information by Company officers and preventing disadvantageous treatment of whistleblowers.

In April 2021, the “Quality Compliance Committee” was established as an advisory body to the Board of Directors, including outside experts as members, with the aim of strengthening future recurrence prevention measures and enhancing effectiveness of the measures. Under this committee, the Company will conduct additional verification of portions that were not completed in the investigation of the special investigation committee, implement recurrence prevention measures, and verify the effects.

For risk management, each Executive Officer identifies and analyzes business risks including changes in political, economic and social situations, currency fluctuations, rapid technological innovations, as well as changes in customer needs, examines measures against such risks, and reviews these measures whenever necessary through discussions at the Board of Directors, the Audit Committee, the Executive Committee and other meeting bodies. In addition, the Company avoids, prevents and manages the risks by ensuring each site of the group companies develop systems to immediately share information of materialized risks relating to compliance, antisocial forces, investments, finance, procurement, the environment, disasters, quality, information security, export control, legal affairs, etc. with respective business divisions in charge, as well as ensuring each corporate administrative division prepare internal rules, guidelines, etc., conduct education and enlightenment activities, preliminary checks, audits on business operations, etc. and cooperate with the relevant internal business divisions. In addition to ongoing formulation of, training for and review of BCPs assuming large-scale of earthquake etc., the Company established a safety confirmation system for confirming the safety of employees and their families via the internet in the event of a disaster.

Continuing from the previous fiscal year, during fiscal 2020, in order to prevent the spread of COVID-19 infections, the Company worked on initiatives including working from home, thorough adherence to mask-wearing while in the office, setting maximum limits on attendance rates for each division, and managing the health of employees on a regular basis.

Regarding misconduct related to quality, the monitoring function for quality compliance risk did not function adequately, and it was unable to fully grasp the possibility of misconduct or the occurrence of misconduct as a problem, which we believe is one of the main factors for misconduct continued. Therefore, the Company has put forward strengthening monitoring related to quality compliance as one measure to prevent recurrence, and will implement the following: (1) in addition to the first line of defense, which is the internal control system for sales, development, design, and manufacturing, also review the second line of defense, which is internal audits (integrity

audits) by the Corporate Quality Assurance Division, and conduct audits of the Corporate Quality Assurance Division by the Internal Auditing Office, which is the third line of defense, (2) establish a process whereby the Audit Committee expresses opinions regarding the results of the aforementioned audits by the Corporate Quality Assurance Division and the Internal Auditing Office in (1), and in the event that improvement is required, follow up on how improvement was carried out, and establish an operational system for confirmation from an objective point of view, and (3) regarding details of risk management activities conducted by the Corporate Quality Assurance Division and Chief Quality Officer (CQO), information will be regularly shared among management executives, the suitability and necessity of cross-divisional measures will be discussed, and made the subject of internal audits.

## **2. Basic Approach and Development Status Regarding Elimination of Antisocial Forces**

The Company's policy is to take a resolute stance against antisocial forces that pose a threat to the order and safety of civil society, and cut off all ties with them. The following systems have been put in place to ensure the efficacy of this policy.

- (1) The compliance department will address risks involving antisocial forces, and an officer and a person in charge will be appointed for each Company's office. These people will collect and provide risk-related information, and explain response procedures for risk scenarios.
- (2) To ensure close liaison with the Tokyo Metropolitan Police Department and other police departments with jurisdiction, Tokubouren, and other external agencies, the Company will keep up visits and other links to build up information on antisocial forces. If there is the possibility of harm from such forces, the Company will promptly notify these agencies, consult with them, and act in partnership with them.
- (3) To eliminate antisocial transactions, the Company will work to enact rules on the prevention of such transactions, establish a system for the compliance department in all divisions to vet new trading partners, and introduce clauses for the elimination of gang activity from contracts and transaction terms. The compliance department will conduct internal audits to confirm the state of compliance.
- (4) To raise awareness among employees on how to handle antisocial forces, the Company distributes guidebooks, etc., declaring, "We absolutely refuse all contacts and demands from antisocial forces and groups," and strives to make all employees aware of the declaration.
